July/August 2015

Clapham Leaf Club

The Club's Grand Finale is on **Saturday 4 July** at Venn Street Market (10 am – 4 pm). Clapham Leaf Club is a project designed to enable pupils of the Clapham and Larkhall Collaborative primary schools (Allen Edwards, Clapham Manor, Heathbrook, Larkhall, Macaulay CE) to learn all aspects of growing their own food from preparing the soil using organic matter, to sowing seeds and culturing their crops which will be harvested and sold as fruit and vegetables or used in a cuisine and cooked and sold at the Market every year in July.

Now in its fifth year, the Grand Finale will show the great efforts made by the schools over the past two terms. Each year Larkhall Primary deliver the best hanging baskets along with a variety of fresh berries from their allotment and freshly laid eggs from their hen and duck pen! Heathbrook Primary will be showing their horticultural skills selling fresh lettuces, strawberries, spring onions, peas and tomatoes and Allen Edwards Primary have been busy planting potatoes, carrots, onions, runner beans, tomatoes and courgettes in March and radishes and rocket just before half term. And if you're feeling hungry Clapham Manor Primary will be making and selling fresh pasta, pea pesto and beetroot brownies – all from their harvest!

This is the first year all five schools have been able to take part together and this project is all about the local primary pupils working together learning skills for life in school and at the market, so please come along and support their work and help raise money for each school's PTA programme.

New planning policies

In the last few months we have participated in several Lambeth consultation exercises. On the bigger issues facing Clapham we have drawn attention to the pressures to enlarge and alter existing homes to such an extent that their original character is lost, the change of use from commercial and employment floorspace in the town centre to residential use, the difficulties that small independent businesses face competing with large retailers, and the need for public transport improvements. On the positive side we acknowledged the success of projects such as the Old Town improvement scheme.

The first of these issues is being addressed now with Lambeth preparing new planning guidance on house alterations and extensions. We have commented on what we feel are generally useful and well-founded draft policies. But guidance on basement extensions, a matter of increasing concern to residents, is unduly relaxed and we are urging Lambeth to develop more stringent controls.

Planning applications

Since the last Planning Report in March we have been notified of some 90 planning applications, reviewed 15 of them and made representations on the following:

3-5 Nightingale Lane. This application involves replacing what was a police office with a residential care home for dementia sufferers. While the new building presents a well-designed face to the Common, the size of the wing at the rear is over-large, cutting out daylight and privacy to neighbours, and making for poor garden space for residents.

24 Offerton Road. Objection to a new basement structure which covers the full extent of the back garden and whose concrete roof will support no more vegetation than a layer of grass. If other neighbours were to follow this precedent the verdant tree lined character of these rear gardens would disappear.

Lillieshall Road. We have continued to draw Lambeth's attention to work on these listed buildings where it exceeds the consents granted, and some enforcement action is being taken as a result. In addition we have made detailed representations on new applications at Nos.13 and 22, as well as recording details for archive purposes.

691 Wandsworth Road. Objection to another unrealistic application to construct four, four-storey houses on a site which is really only suitable to be a back garden.

Turnchapel Mews. Having been refused planning permission to rebuild one of the mews buildings, the applicant has appealed. Because of the significance of the scheme, we have made representations to the Planning Inspectorate, pointing out the damage we consider the proposals make to the unique character of the mews.

Clapham Common Quietway

Lambeth Council is working with Transport for London (TfL) on a proposed Quietway from Waterloo to Croydon. The TfL website has this to say about what a Quietway is:

'Quietways will be a network of radial and orbital cycle routes throughout London. Linking key destinations, they will follow backstreet routes, through parks, along waterways or tree-lined streets.'

'The routes will overcome barriers to cycling, targeting less confident cyclists who want to use low-traffic routes, while also providing for existing cyclists who want to travel at a more gentle pace.'

The current intention is for the Quietway to run from the corner of Bromell's Road and The Pavement, across Clapham Common by the side of Long Pond, the Windmill play area, the Spinney (formerly the One O'Clock Club) and Eagle Pond before turning towards West Side. There would be associated improvements to the crossings and the area around the Quietway. Among these would be narrowing part of Rookery Road, and putting into effect the long-planned closure to traffic of Windmill Drive.

Lambeth are beginning consultation by presenting the plans to the Clapham Common Management Advisory Committee in July.

Wigs galore!

At our May meeting, wig-maker *par excellence* Angela Cobbin gave us a fascinating insight into her career. Starting as a hairdresser in Brighton during the 1960s she soon tired of routine Jean Shrimpton and Vidal Sassoon hair styles and, in search of something more challenging, joined Nathan's theatrical costumiers in Covent Garden. She was soon hooked, and quickly learned the history of wigs and styles from ancient Egypt onwards, of which she gave us a brief summary.

After a while Angela moved to Madame Tussauds, and two years later to the Royal Opera House. She gave us a taste of the excitement and frenzy back stage, with incidents such as the time she and one other person had to put wigs on 36 members of the chorus in 35 minutes! By the 1980s she had moved to the National Theatre, and again the speed and skill required was evident when she told us that at that time sometimes an actor would play a small part in both the Olivier and the Lyttleton theatres in the same evening!

Angela toured internationally with the National Theatre, and then work for *Spitting Image* came because of her experience at Madame Tussauds. She also worked on productions at the Donmar and Almeida, and very soon she was in demand for a wide range of musicals, including *Les Miserables*, *Phantom of the Opera* and *Mary Poppins*, both in London and touring the USA. For *Mary Poppins* she was asked do a dog for the first time, and she showed us the result – a very appealing shaggy, long-haired Yorkshire Terrier made with real, human hair. Angela told us that for 18th century styles, she sometimes uses yak hair as originally used. Her very entertaining talk was well illustrated with many photographs of the stars for whom she has provided wigs during her career.

We also learned how wig-making has changed over the years. Wigs have become much lighter and are designed to look as real as possible. Nowadays a wig is often put just behind the hairline so that the natural hair is in front and the hairpiece looks more like the real hair.

There were several questions from the audience who were clearly fascinated by this subject – yet another of the theatre skills we so easily take for granted, until something goes wrong! We are most grateful to Angela for an entertaining and informative evening.

A NADFAS Society in Clapham?

To many people the initials NADFAS (National Association of Decorative and Fine Arts Societies) and the organisation are familiar. NADFAS is a leading arts charity which opens up the world of the arts through a network of local Societies and national events.

With inspiring monthly lectures given by some of the country's top experts, together with days of special interest, educational visits and cultural holidays, NADFAS is a great way to learn, have fun and make new and lasting friendships. Society Members and Affiliate Members can become involved in worthwhile conservation volunteering projects in churches, museums and stately homes. There are over 375 Societies throughout the UK and mainland Europe, as well as in Australia and New Zealand. The Greater London area has twenty-one Societies affiliated to the central NADFAS organisation.

Clapham does not have a NADFAS Society and we are hoping to open one in the area. If you would be interested in joining or helping to set it up please call 020 3206 9331 or email membership@nadfasc.org.uk. You can find out more at nadfasc.org.uk.

Stephen Beaven (1940-2015)

The trustees of the Hibbert Almshouse Charity were saddened to learn, only in June, of the death of Stephen Beaven on 24 March. Stephen used to live in Kennington, but following a heart attack in 2009 he moved to Battle in Sussex. He came to our Summer Party each year since then, and it was only when a neighbour responded to our invitation to this year's party, that we learnt this news.

Stephen was involved in the early days of the Clapham Society, and was its Secretary, jointly from 1965-68 and then from 1973-75.

He became a trustee of the almshouses in 1976 and remained one until 2009. As the principal trustee involved in the major refurbishment in the early 1980s Stephen was very effective and considerate. It was his practice to visit the almshouses every Saturday, take the readings of the gas and electricity meters, and call in on the residents to deal with any problems that they had.

Stephen worked in the printing industry, was a Lambeth Labour Councillor and a trustee of Lambeth and Southwark Housing Association. He was a bachelor, and kept his private life much to himself.

The Clapham Society urgently needs a new secretary

We have so far had no response to last month's request for a new secretary to join the Main Committee in October. Please consider whether you might be able to spare the time to circulate papers for and take minutes of six meeting a year. This is not an arduous task and a good way to contribute something towards the Society. Contact jennycobley@aol.com.

Local Authors

This month two more local authors will be at Clapham Books.

On **Thursday 16 July** at 7.30 pm JJ Anderson will read from and talk about her collection of short stories *The Village: A Year in Twelve Tales*. Copies will be on sale and the author will be happy to sign them. She will also preview her forthcoming publication, *On the Frontier*, due out later in July. JJ Anderson was at MacFarlane's Fine Foods of Abbeville Road recently, for a similar event and a steady stream of interested locals sat down to discuss the stories, and the experience of writing and publishing. Much of the discussion is reproduced on the 'Ask the Author' page of thevillagedirect.com and in JJ Anderson's interview at Smashwords (smashwords.com).

On **Thursday 23 July** at 7.30 pm another local author, John Taylor, will be reading from his recently published book, *Departing Vienna* and answering questions. In this intriguing novel – part detective story, part thriller – the hero sets out on a search for the author of the book he is translating, explores themes of responsibility, guilt and identity, leading on through a literary maze in which all is not as it seems.

Both events at Clapham Books, 26 The Pavement, SW4 0JA.
