Key areas of involvement

Planning

The local authorities have a statutory duty to consult us on planning and licensing matters. Our Planning Sub-committee draws on a wealth of professional expertise and experience to comment on planning applications and developments and to give evidence at public enquiries.

The Common

Our Common and Open Spaces Sub-committee is dedicated to securing the future of Clapham's most precious asset. It advises on its maintenance and improvement for sport and wildlife and on the preservation of its character. We seek to improve the management of events on the Common and to discourage those of an inappropriate scale or nature.

Roads and Transport

Our Roads and Transport Sub-committee reviews and, where necessary, challenges transport issues, taking into account the interests of people who live, work, walk, use public transport, cycle and drive in the area.
